BAER Team Leader				
Fire Investigator	Brian Donnelly			530-559-6033
ECC Center Manager	Eric Rice			530-906-0823
Supervisory Disp.	Tim Scarbrough	530-477-7237		530-648-6043
Telecom (radio)	Brad Mitchell			530-941-9111

current)	up canyon winds are common due to the South Yuba river drainage. Numerous past fires have occurred in the area, both human and lightning caused. Very steep and rugged terrain contribute to difficult containment and rapid fire growth.			
15. Fuel types (at and ahead of fire)	Thick vegetation predominately timber and brush fuel types. Timber slash/dead and down fuels also contribute to fire spread.			
16. Local unusual fire behavior to be aware of in the incident area	Fire Behavior is normal for this time of the year. NO exceptional drought conditions exist.			
17. Policy Direction				
Local Fire Policy				
WFDSS status				
Resource values threatened or involved	Private land	The community of Washington is threatened, evacuations have taken place. Private in-holding and SPI timber lands are threatened.		
	Wilderness	NA		
	Roadless areas	NA		
	T&E (Threatened & Endangered) species	NA		
	Active/Existing Timber Sales	NA		
	Water Rights	NA		
Financial considerations	Federal incident/Federal DPA			
18. Cooperator Status	Numerous cooperating agencies and have been actively engaged in the incident.			
Agencies involved in Unified Command	Not currently in Unified Command. Trigger points have been established to determine potential need for unification of the incident. Cooperators in unified may include CALFIRE, Washington VFD, NCSO.			
Cost apportionment team ordered or needed?	NA			
Cooperating agencies (incl. contacts with law enforcement agencies)	Agency	CALFIRE	Agency Rep	Landon Haack
	Agency	CAL-OES	Agency Rep	Eric Petterson
	Agency	NCSO	Agency Rep	Jason Perry

	Agency	SPI				Agency Rep	Joe King
	Agency	PG&E				Agency Rep	
	Agency	Washington VFD				Agency Rep	Mike Stewart
	Agency					Agency Rep	
	Agency					Agency Rep	
19. Private Landowner Status	Notified	Yes	<input checked="" type="checkbox"/>	No	<input type="checkbox"/>	Name/Phone	Joe King/530-360-1677. SPI
	Notified	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>	Name/Phone	
	Notified	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>	Name/Phone	
	Notified	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>	Name/Phone	
	Notified	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>	Name/Phone	
	Notified	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>	Name/Phone	
20. Federal MAC (Multi-Agency Command) organization status	National PL 4						
21. Local MACG (Multi-Agency Coordination Group) status	Northern California Area PL 4						
22. Local political considerations (not listed in #8)	NA						
23. Legal or investigative considerations (current investigations in progress, current & potential for claims)	Fire cause under investigation.						
24. Media and public information considerations.	There have already been several media requests with the proximity to the Sacramento area media requests are expected to continue. Overall high level of interest in fire information in the Grass Valley/Nevada City area.						
Fire Information Officer (Reports to Agency Administrator or IC?)	PIO will report directly to the IC and is expected to coordinate closely with the TNF.						
Forest Information center phone number	530-477-7237						
25. Training considerations	Use Forest trainees as first priority. Then Regional priority trainees from Regional list.						
26. IMT off-incident reporting requirements (copy of current	ICS 209 must be submitted to the National website or ECC at 0600 and 1800 hours daily.						

ICS-209)	Email an IAP to the ECC prior to each shift.
Other	

27. Evaluation team or review team assigned?						
28. Overview of Resources assigned to or needed on the incident (including status of current IMT)	285 People are assigned to the incident.					
Condition of forces currently on the fire	Initial Attack resources have worked extended shifts to gain containment.					
General information on resources currently on the fire	A mix of Federal, State and Local Government resources on scene					
(Attach a specific list if available)	See IAP					
Participation of local people on incoming IMT organization	Fire is currently being managed by TNF and CALFIRE employees. Limited availability to support extended attack operations. Current resources assigned to the fire will be a separate attachment to this document.					
Air Tanker opportunities	Air tankers have been heavily utilized to support direct and indirect suppression strategies					
Helicopter opportunities	3 Type 2 helicopters have been utilized to support direct fire line tactics.					
Heavy-Lift helicopter use	1 Type helicopter performed water dropping in the drainage to check fire spread.					
Engine Opportunities	Direct hose lays were deployed, as well as, hose lays to re-enforce indirect containment lines.					
Dozer Opportunities	Dozers have been utilized to construct indirect lines along ridges.					
ICP (Incident Command Post) location	Washington road at the Dry Yard.					
Base Camp location	Whitecloud Fire Station					
Water sources/well sites	South Yuba River and Scotts Flat Reservoir.					
Cater, shower unit, laundry service, etc.	None assigned					
29. Air Operations	Brian Rosenow (Air Attack 17) Grass Valley Tanker Base					
No. of Air Tankers assigned	No air tankers assigned					
Number of helicopters by type	Type 1	1	Type 2	2	Type 3	

Air Attack situation	Two Air Attack platforms are stationed at Grass Valley Tanker Base
Lead Plan situation	Lead planes are ordered through North Operations if needed

30. Transportation issues	Large scale construction project along the Highway 20 corridor.			
31. Supply ordering system (Identify what IMT can purchase without going through the ordering system.)				
32. Buying Unit status/need (Identify IMT can purchase without going through the ordering system.)				
33. Agreements in effect (landowner, equip., etc.)	Land Use Agreement is completed with the Nevada County Fair Grounds.			
34. Union notified? (over 300 FS employees)	Yes?	<input type="checkbox"/>	No?	<input checked="" type="checkbox"/>
35. Human Resource Specialist ordered? (over 300 FS employees)	Yes?	<input type="checkbox"/>	No?	<input checked="" type="checkbox"/>
36. Closest medical facilities, including burn centers	Sierra Nevada Memorial Hospital, Sutter Roseville Trauma Center, UC Davis Burn Center. (See IAP for details)			
37. Forest Expanded Dispatch status	Phone number 530-477-7237	Expanded Dispatch has been activated		
38. Forest demobilization considerations (release priorities for local resources)	Release Local Government, then State.			
39. Rehab considerations	Dozer lines will need to be repaired.
